

One of the main areas of cause for complaint from the public. What can you do?

- Ask local schools, pubs, community centres, etc., if operatives can use their parking facilities to avoid parking on roads.
- Look into bussing operatives from remote parking.
- Offer incentives for car sharing.
- Encourage the use of public transport.
- If vehicles must be parked outside of the site for a period of time, be mindful of blocking paths and driveways.
- It may be useful to employ a traffic marshal to manage the flow of traffic, especially during deliveries.
- A booking process could be used to schedule deliveries to avoid peak traffic times.
